Villa Embrace, St. Barths Introduction

Needs are anticipated and wishes fulfilled with an in-house chef, whose creativity is supported by an impressive wine cellar, and a butler who can arrange for anything—any time, anywhere.

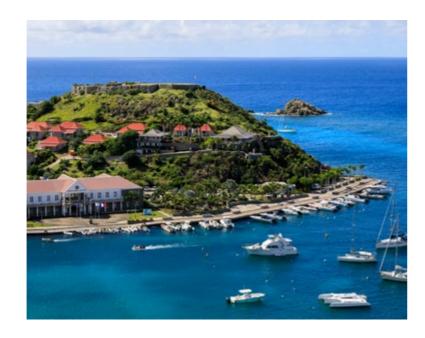

Project — inspiration

After more than a decade of traveling throughout the Caribbean and experiencing its most exclusive hotels and villas, the owners collaborated with architects and artisans from around the world to create a luxury villa that reflects their respect for nature, passion for design and love for St. Barths.

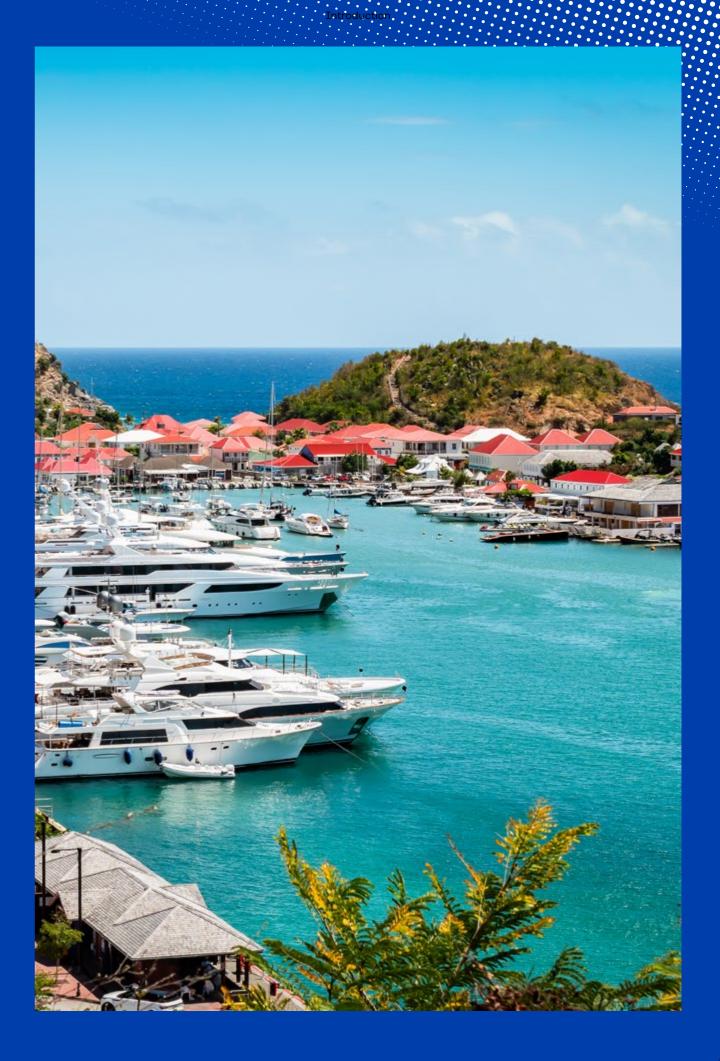

Since the 1970s, St. Barths has drawn artists, entertainers and entrepreneurs to its whitesand beaches and cerulean waters. Today, the 10-square-mile island is among the world's most exclusive yachting destinations and a popular vacation spot for sophisticated travelers seeking elegance and exclusivity.

Caribbean Sea

Bold by —design

Driven by imagination and innovation, Embrace celebrates the art of detail in both its service and style.

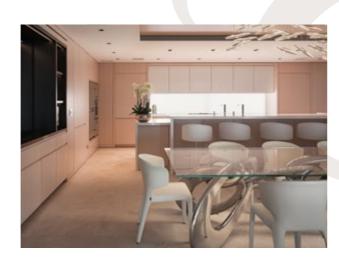

Its enviable setting offers an uninterrupted view encompassing the green mountains, Caribbean sea, surrounding islands and Gustavia's yacht-filled harbor.

Within its 12,000 square feet, nature's beauty is invited in with airy architecture and sleek design and complemented by works from some of the art world's most unconventional thinkers.

Embrace uses architecture and design to tell a grand story, one framed by history and heritage and rooted in sophistication and style.

Within the breathtaking villa, guests can host movie night, explore the world via the extensive wine cellar and sit down to meals prepared by the in-house chef.

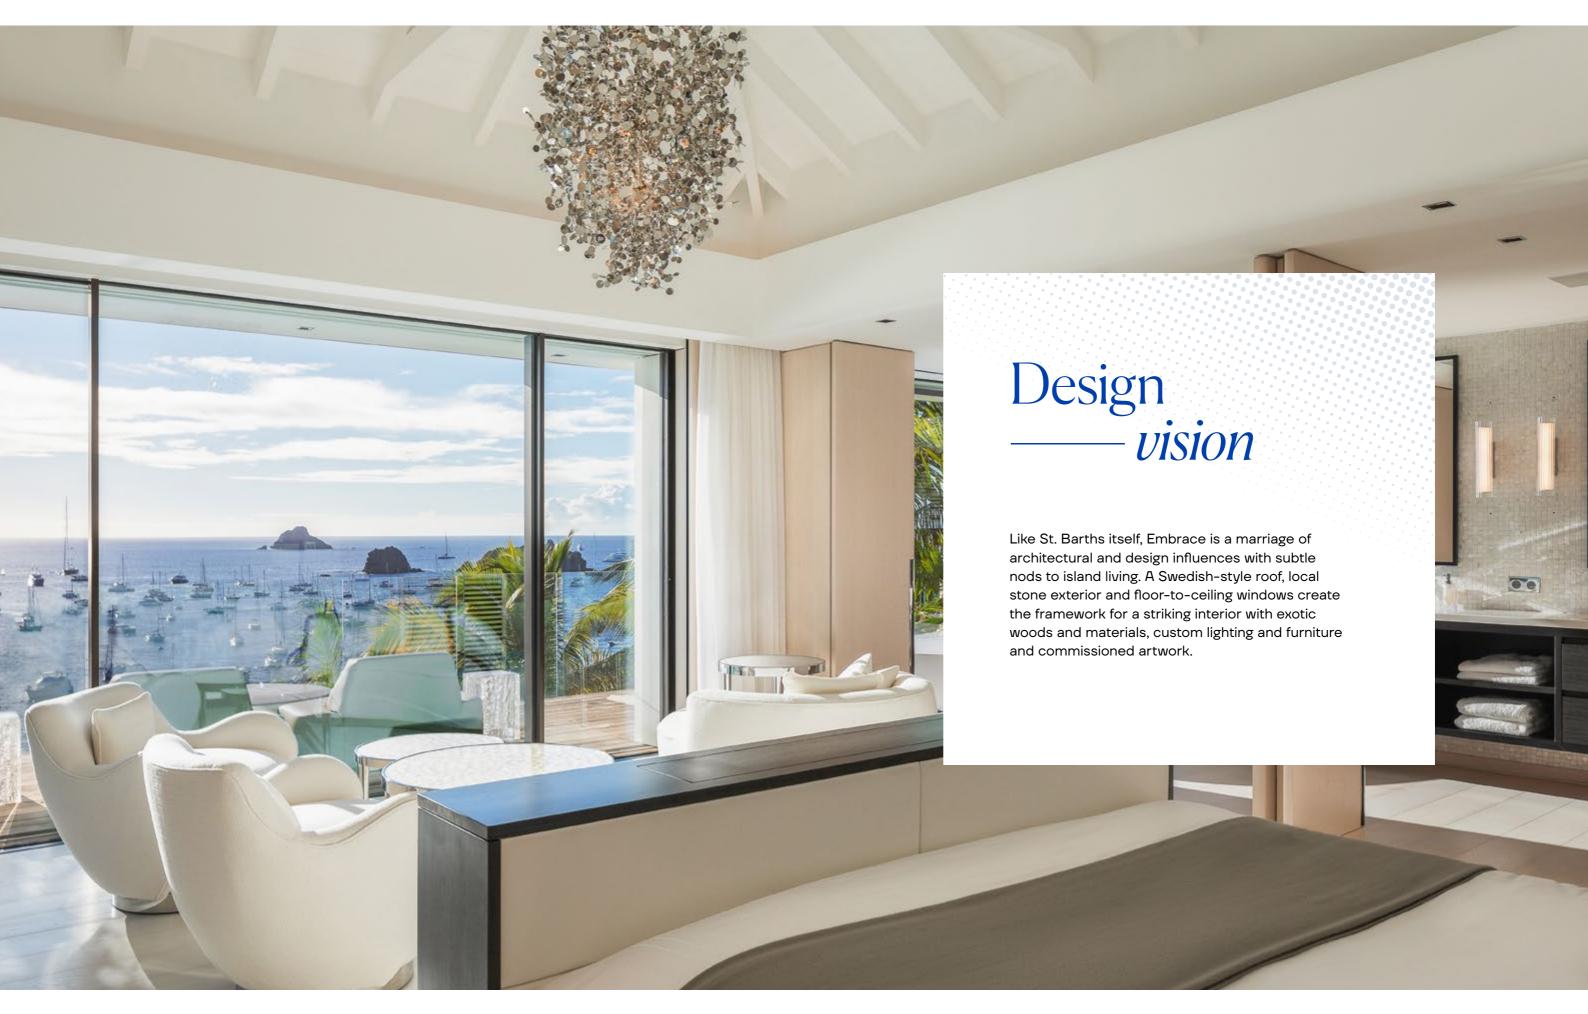

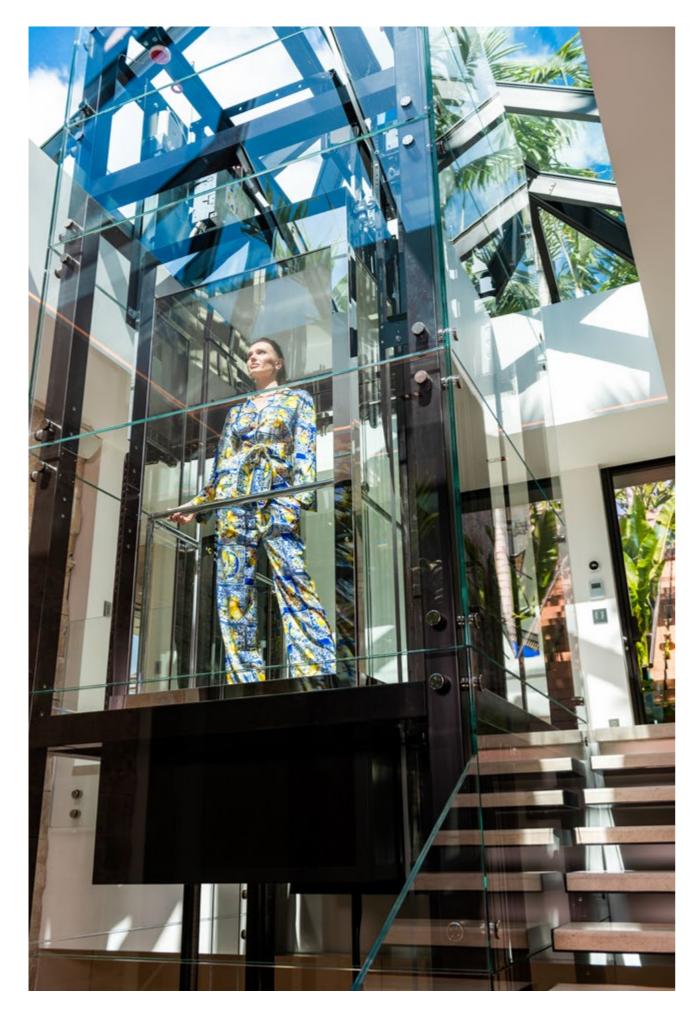

27

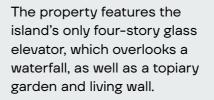

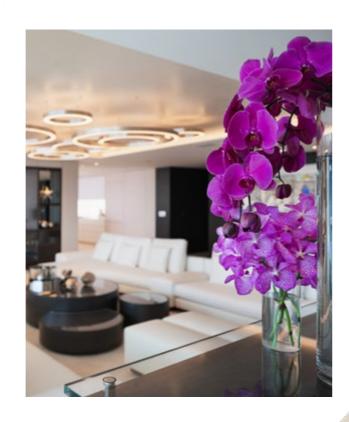

The villa features an array of shared spaces for guests to gather, dine or relax.

The Great Room and Family Room feature handmade silk rugs and custom Italian sofas ideal for an afternoon of reading, movie night or late-night conversation.

ob

In the Games Room, Vladimir Kagan armchairs are perfect for passing hours exploring the custom leather T.T.Trunks games table featuring chess, poker, Scrabble®, dominos, Monopoly® and more.

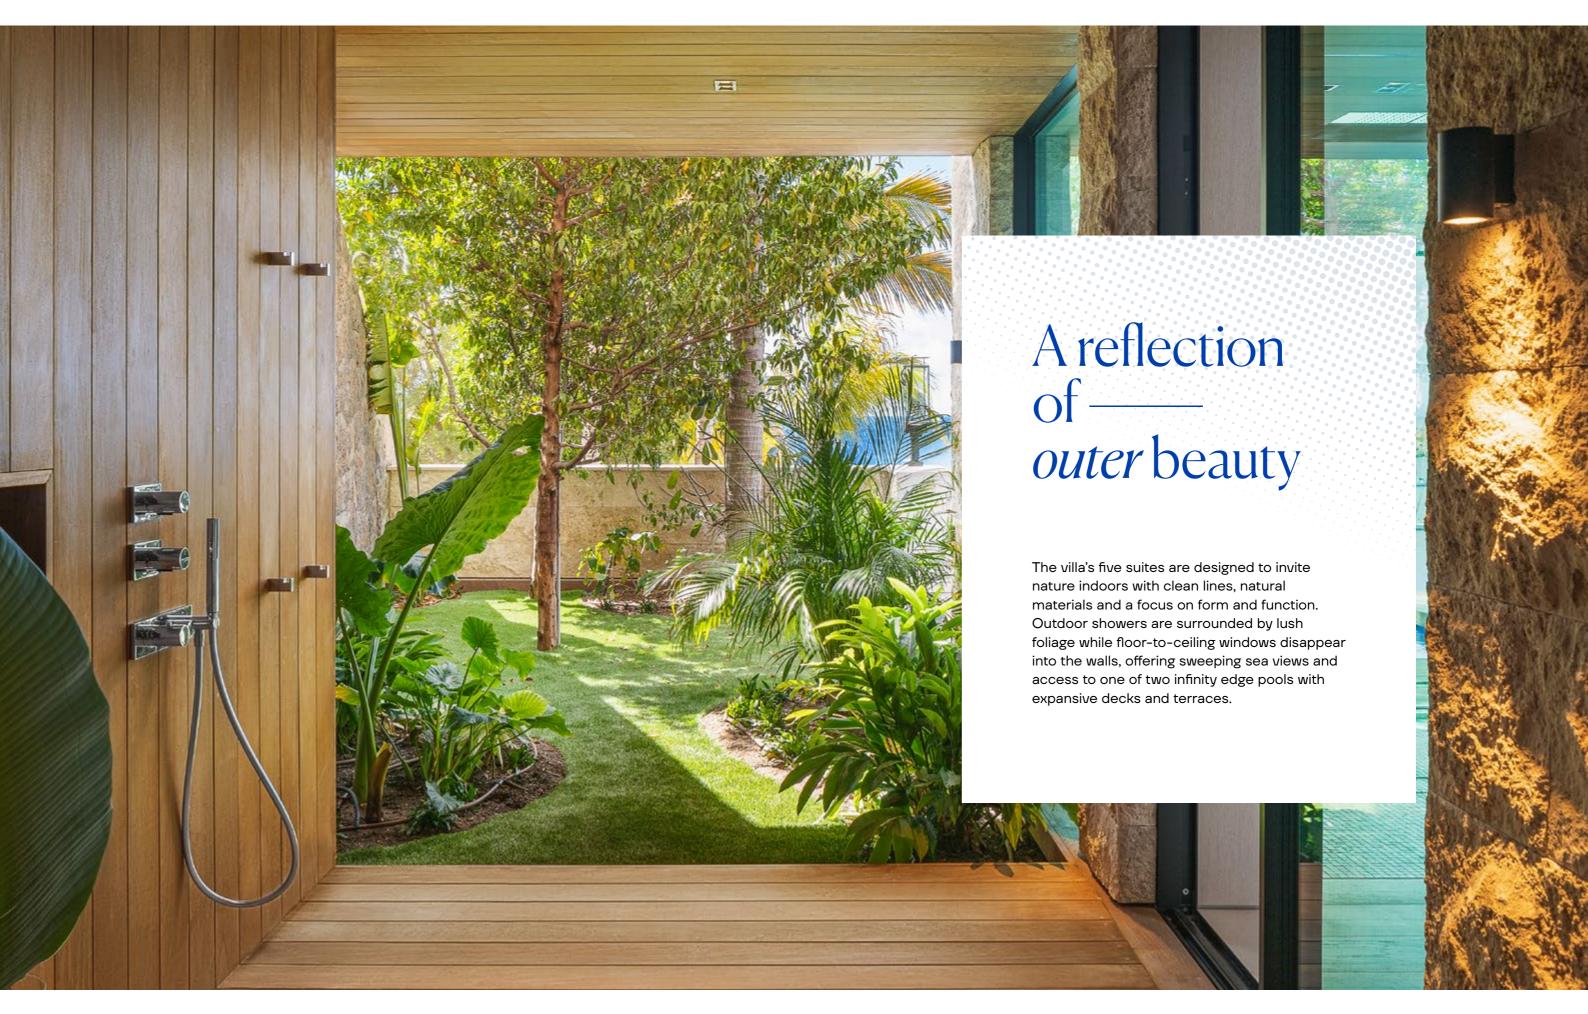

Set on the top floor, the study commands attention with custom furnishings including an impressive black nut-wood and leather desk.

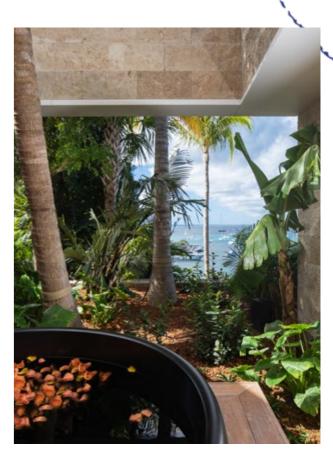

Blurring the line between indoors and out, each of the villa's five suites uses floor-to-ceiling glass and modern, muted decor to showcase the island's most impressive attraction: nature.

Windows disappear into walls to bring you one step closer to the sparkling Caribbean Sea, a view that can be savored from bed or your private terrace. While the view is stunning, so too are the finishes within including hand-stitched French leather cabinets from T.T.Trunks and handmade silk carpets from India.

Food and beverages can be enjoyed alfresco or in the main dining area featuring Casa Fendi bar stools and a custom, nautical-inspired table from Italy's Barbarini & Gunnell. We can also arrange a picnic lunch or bonfire dinner on any of St. Barths' 20 whitesand beaches.

Villa Embrace, St. Barths Experiences

Villa Embrace, St. Barths Experiences

Embrace's coveted location, carved into the mountain overlooking Gustavia's yacht-filled harbor, provides both peace and proximity, with the city's fine dining, designer shopping and vibrant nightlife just a short walk away. Around the island, pristine, white-sand beaches and lush, sloping hills offer ample opportunity for both adventure and relaxation.

The landscape is both the stage and the backdrop for experiencing St. Barths with activities designed to connect with nature and admire its beauty.
